Due to the fact that the following conditions are present today within The United States of America published on:

1: International Tort Claim against General Services Administration!

2: The City of Center Hill converts itself into a plantation of people that are deemed property!

3: Does your vote count in America?

07-22-2016: <http://reignoftheheavens.com/?p=2234>

4: The importance of competent management of public municipal corporations!

It is quite obvious that the Reconstruction Act failed in its implementation. It is further obvious that Martial Law under the leiber code is still in effect in these United States and forms of slavery does in fact exist within The United States of America.

It was further required that the original Confederacy of 1781 be reformed into a republic form of National Government due to the fact that the union under the constitution of the United States of America and of the United States has failed to uphold human rights of the people which has caused a perpetual Martial Law scenario within the United States. Basically, the States are failing to govern according to its agreements and have caused a perpetual war by and between the inhabitant citizens and the Residents wherein slavery still exists.

Therefore, reconstruction must be re-implemented in order for the country to be human rights and the rights of the child compliant.

By the authority vested in me, John Harold Fulks, by the Government of The United States of America, holding the office of Governor for the Government of The United States of America, it is hereby ordered:

It is ordered by the Government of The United States of America that the Adjutants General Association of the United States open up communication channels to the Government of The United States of America for the purpose of peaceful settlement of disputes.

It is further ordered by the Government of The United States of America that all authority over the top level domain .gov is hereby removed from the General Services Administration and granted to the Government of The United States of America by The Internet Corporation for Assigned Names and Numbers (ICANN).

It is further ordered by the Government of The United States of America that it has full access to the incun.1454.b5 account for the purpose of stabilizing the trade and commerce of the country thereby using the resources for education and eradicating any form of slavery.

It is further ordered by the Government of The United States of America that all individuals documented by the Government of The United States of America is hereby removed from under Martial Law and the Lieber code thereby exercising the right of self determination under the Government of The United States of America as a subject of the Law of Nations. Please see [National Great Registry](#) and email attachments.
